Meteorological and Geoastrophysical Abstracts is a monthly publication presenting, in English, current meteorological and geoastrophysical abstracts gleaned from foreign and domestic literature.

Meteorological & Geoastrophysical Abstracts

Publication Office
American Meteorological Society
45 Beacon Street, Boston, MA. 02108

Editorial Office
P.O. Box 1736
Washington, D.C. 20013
Telephone: (202) 546-6734

Address all business communications, orders, and inquiries to the Executive Director, American Meteorological Society, 45 Beacon Street, Boston, MA. 02108. Exchanges and reprints may be sent directly to P. O. Box 1736, Washington, D.C. 20013.

Subscription Rates
Government agencies and industrial, commercial, scientific, and research organizations, $400.00. Educational institutions and public libraries, $200.00. Back volumes: Vol. 16–26 (1965–1975), same as above. Vol. 1–15 (1950–1964), $50.00 per vol.; $10.00 per issue. Special price, Vol. 1–10 (1950–1959), complete set $200.00.

Cumulative Author, Subject, and Geographic Indexes
(Vol. 22, No. 1–12, 1971)

Dec. 1975

Published by the American Meteorological Society at 45 Beacon Street, Boston, MA. 02108. Second-class postage paid at Boston, MA. and at additional mailing offices.

ERRATA

p. 2467	*add* additional title "Lidar, 22.2–51" under **Collis, Ronald T. H.**
p. 2805	*change* "Oura, Hironumi" to "Oura, Hirobumi."

Volume 22, 1971

22.1 –22	Abstract: *delete* "The general nature . . ." in line 11 to "needed." in line 14.
22.1 –95	Title translation: *change* "Problem of the similarity resemblance of . . ." to "Similarity of . .
22.1 –314	Abstract: *change* "Institute of Atmospheric Physics of the Academy of Sciences of the tonean Academy of Sciences" to "Institute of Atmospheric Physics of the Estonian Acade of Sciences" in lines 2 and 3.
22.1 –400	Abstract: *change* "W. Altmanspocher" to "W. Altmanspacher" in line 8.
22.1 –487	Title: *change* "raine" to "raione." Title translation: *change* "Eupatoriia" to "Eupatoria." Abstract: *change* "Tarkhanut" and "Tarakhnut" to "Tarkhankut."
22.1 –494	Author: *change* "Gathman, S. C." to "Gathman, S. G."
22.1 –611	Title translation: *change* to "Effect of capillarity upon water flow in the free surface conce by fine interstitial rocks."
22.1 –666	Author: *change* "Tokmagamvetov, G. A." to "Tokmagambetov, G. A."
22.1 –713	Abstract: *change* "dee-sea" to "deep sea" in line 1.
22.1 –759	Title: *delete* period after "ratio" and *add* "of" in its place.
22.1 –772	Author: *change* "Mosetti, Francisco" to "Mosetti, Francesco."
22.2 –212	Abstract: *change* "Pedesen" to "Pedersen" in line 2.
22.2 –413	Title translation and abstract: *change* "quants" to "quanta."
22.2 –536	Author: *change* "Oura, Hironumi" to "Oura, Hirobumi."
22.2 –692	Abstract: *change* "Troitskoia" to "Troitskaia" in line 6.
22.2 –10R	Affiliation: *change* "Maxmilians" to "Maximilians."
22.3 –275	Title translation: *change* ". . . the Mediterranean low" to ". . . the lower Mediterranean
22.4 –468	Title translation: *change* "résumé" to "summary."
22.4 –477	Subject heading: *change* "Hythegraphs" to "Hythergraphs."
22.5 –55	Author: *change* "Christea" to "Cristea."
22.5 –180	Abstract: *insert* "of" between "path" and "the" in line 1.
22.5 –191	Title translation: *change* "Effect of scattering" to "Effect of lateral scattering."
22.5 –244	Abstract: *change* "denitrification" to "distribution" in line 1.
22.5 –360	Title translation: *change* to "Upper troposphere and lower stratosphere variations in the meteorological elements over Bucharest."
22.5 –363	Abstract: *change* "May 34, 1967–Feb. 1, 1968" to "May 23, 1967–Feb. 6, 1968" in li
22.5 –389	Author: *change* "Starkov, G. B." to "Starkov, G. V."
22.6 –543	Title translation, abstract, and subject headings: *change* "Alasheev" and "Alasheyen "Alasheyev."
22.7 –39	Abstract: *change* "experiences" to "found" in line 4.
22.7 –85	Abstract: *change* "Pearl" to "Pearl Harbor" in line 8.
22.7 –235	Title: *change:* "motto" to "moto."
22.7 –247	Title translation: *change* ". . . radiation fluxes through . . ." to ". . . radiation fluxes on.
22.7 –322	Serial note: *change* "Ref. 70-8-T" to "Ref. 70-9-T."
22.7 –332	Abstract and subject headings: *change* "antropogenous" to "anthropogenous."
22.7 –516	Abstract: *change* "Unified Global System of Oceanic Stations" to "Integrated Global Station System" in line 2.
22.8 –72	*Delete* last line of catalog entry beginning with "Wash. D.C. . . ." and first two li abstract to "preci-" and *insert* in Item 22.8–55 after *"Research."*
22.8 –88	Title: *change* "oxident" to "oxidant."
22.8 –106	Abstract: *change* "Nesezhragt" to "Nederbragt."
22.8 –218	Title translation: *change* ". . . ear wax ripeness" to ". . . wheat ear ripeness."
22.8 –299	Abstract: *change* "Chang Jen-hu" to "Jen-hu Chang."
22.8 –303	Title: *change* "Howenwarte" to "Hohenwarte."
22.8 –320	Abstract: *insert* "There was studied" at beginning of third sentence.
22.8 –430	Subject Heading: *change* "Abastuman" to "Abastumani." Abstract: *change* "Kamenskee Plateau" to "Kamenskoye Plateau."
22.8 –445	Author affiliation: *change* "GSIRO" to "CSIRO."
22.8 –446	Abstract: *change* "singe" to "since" in line 7.
22.8 –477	Abstract: *change* "Muldlrow Glacier" to "Muldrow Glacier" in line 5.
22.10–90	Author: *change* "Skatskiia. V. I." to "Skatskiĭ, V. I."
22.10–436	Author: *change* "Georgievskiĭ, Iu. A." to "Georgievskiĭ, Iu. S."
22.10–483	Subject Heading: *change* "Deformation" to "Dynamics."
22.11–9	Author: *change* "Kondrat'ev, I. Ia." to "Kondrat'ev, K. Ia."
22.12–258	Title, abstract, and subject headings: *change* "Pentele" to "Penteli."
22.12–478	Author: *change* "Jones, A. Vallance" to "Vallance Jones, A."
Vol. 22, no. 1	Author index: *delete* "Ogawa, Toshio, 520"; "Tanaka, Yoshikazu, 520"; and "Yo Michiro, 520": *add* "Polk, Charles, 520."

AUTHOR INDEX

Note: In this index, author entries are arranged alphabetically and, under each author, titles are arranged alphabetically by the first word (excluding articles) of the original title. Translated titles are placed in brackets after foreign language titles. Authors whose names begin with an article or preposition (de, di, le, la, van, etc.) are generally indexed under that article or preposition. Cross references indicate variations from that practice, or possible alternate entries. Multiple-author titles are listed under the first author and the coauthors are entered after the title.

Radio astronomic equipment
Silver, S., 22.12–483
Radio Astronomy Explorer (RAE)
Walden, H., 22.1–56
Weber, R. R. et al., 22.5–399
Radio astronomy measurements
Vitkevich, V. V. et al., 22.1–533
Radio astronomy research
Silver, S. et al., 22.12–483
Radio astronomy textbooks
Zhelezniakov, V. V., 22.1–535
Radio aurora
Czechowsky, P. et al., 22.4–147
McDiarmid, D. R., 22.10–448
Radio echoes from ionosphere
Crawford, F. W. et al., 22.9–165
Radio echoes from meteor trails
Lebedinets, V. N. et al., 22.5–402
Radio emission from atmosphere
Basharinov, A. E. et al., 22.10–454
Khrulev, V. V. et al., 22.2–609
Radio emission from clouds
Basharinov, A. E. et al., 22.7–464
Radio emission from cosmic rays
Lerche, I., 22.12–481
Radio emission from galaxy
Stankevich, K. S. et al., 22.8–445
Radio emission from Jupiter
Carr, T. D., 22.5–396
Gerard, E., 22.5–397
Gulkis, S., 22.5–398
Pariiskiĭ, Iu. N., 22.10–464
Warwick, J. W., 22.8–456
Weber, R. R. et al., 22.5–399
Wilkinson, J. E., 22.5–400
Radio emission from Mercury
Goldstein, R. M., 22.2–648
Klein, M. J., 22.2–649
Radio emission from Moon
Fedoseev, L. I. et al., 22.8–444
Reber, E. E., 22.2–638
Radio emission from planets
Kellermann, K. I., 22.2–630
Kerdemelidis, V., 22.4–526
Zhelezniakov, V. V., 22.1–535
Radio emission from rain
Basharinov, A. E. et al., 22.7–464
Radio emission from the atmosphere
Dombkovskaia, E. P., 22.9–287
Radio emission from Venus
Goldstein, R. M., 22.2–648
Muhleman, D. O., 22.3–679
Pollack, J. B. et al., 22.4–529
Sagan, C., 22.3–661
Sinclair, A. C. E. et al., 22.3–682
Slade, M. A. et al., 22.2–658
Radio emissions from auroras
Smith, R. L., 22.3–643
Radio equipment
Berzin, Iu. V. et al., 22.12–150
Krasnov, V. M. et al., 22.5–141
Watts, J. M., 22.5–580
Radio fading
Rensch, D. B. et al., 22.2–195
Radio interference
Ignatov, V. S., 22.10–385
Radio interferometer techniques
Mathur, N. C., 22.7–186
Radio investigation of ionosphere
Drobzhev, V. I. et al., 22.5–134
Felgate, D. G., 22.1–191
Field, E. C., 22.4–151
Gregory, J. B. et al., 22.9–171
Jones, J. E., 22.3–205
Kashin, A. A. et al., 22.7–177
Kimura, I., 22.1–212
Komrakov, G. P. et al., 22.9–174
Kuperov, L. P., 22.9–175
Misiura, V. A. et al., 22.4–172, –174
Musser, J. M., 22.1–228
Perelygin, V. P., 22.8–118
Pfister, W., 22.3–221
Rossiter, D. E., 22.11–214
Tushentsova, I. A., 22.4–196
Radio noise from ionosphere
Laaspere, T. et al., 22.2–610
Radio noise propagation in ionosphere
Mosier, S. R. et al., 22.3–639
Radio refractive index measurements
Lammers, U. H. W. et al., 22.4–202
Radio refractive index variations
Venkiteshwaran, S. P. et al., 22.1–271
Radio refractivity of Earth's atmosphere
Rowlandson, L. G. et al., 22.5–41

Radio sounding of ice
  Robin, G. de Q. et al., 22.1–662
  Van Autenboer, T. et al., 22.4–572
Radio sounding systems
  Bogorodskiĭ, V. V. (ed.), 22.11–507
  Gordon, W. E., 22.2–39
Radio star scintillation
  Papagiannis, M. D. et al., 22.1–234
  Singleton, D. G., 22.1–249
Radio wave absorption
  Agy, V., 22.6–472
  Dmitrenko, D. A. et al., 22.11–225
Radio wave absorption by oxygen
  LeFande, R. A., 22.3–457
Radio wave absorption by water vapor
  Demin, V. V. et al., 22.12–350
  LeFande, R. A., 22.3–457
Radio wave attenuation
  Wilson, R. W., 22.2–629
Radio wave attenuation in rain
  Day, J. W. B. et al., 22.1–49
  Godard, S., 22.1–432
  Kinase, A. et al., 22.5–288
  LeFande, R. A., 22.3–457
  Skerjanec, R. E. et al., 22.1–433
  Vakser, I. Kh. et al., 22.9–394
Radio wave backscatter
  Mir, A., 22.2–264
  Rensch, D. B. et al., 22.2–195
Radio wave interaction
  Vilenskiĭ, I. M. et al., 22.4–197
Radio wave phase variations
  Kaufmann, P. et al., 22.1–211
Radio wave propagation
  Wickerts, S., 22.4–203
Radio wave propagation forecasting
  Joachim, M., 22.6–209
  Klobuchar, J. A. et al., 22.5–93
  Piggott, W. R., 22.3–222
Radio wave propagation models
  Watterson, C. C. et al., 22.2–283
Radio wave propagation over water
  Kuhn, U. et al., 22.3–238
  Wait, J. R., 22.7–536
Radio wave reflection
  Wait, J. R., 22.7–536
Radio wave scattering by sea surface
  Wait, J. R., 22.5–579
  Watts, J. M., 22.5–580
Radio wave transmission through clouds
  Platt, C. M. R., 22.2–497
Radio wave transmission through fog
  Platt, C. M. R., 22.2–497
Radio wave transmission through rain
  Vakser, I. Kh. et al., 22.9–394
Radioactive aerosol distribution
  Nazarov, L. E. et al., 22.3–253
Radioactive aerosol size distribution
  Peters, W. et al., 22.2–299
Radioactive aerosols
  Gedeonov, L. I. et al., 22.8–134; –362
  Schreiber, H. et al., 22.11–182
  Styra, B. I. et al,. 22.11–230
  Teneva, M. et al., 22.1–274
Radioactive contamination of atmosphere
  Gedeonov, L. I. et al., 22.8–134
Radioactive contamination of estuaries
  Angelovic, J. W. et al., 22.4–582
Radioactive contamination of ocean
  International Atomic Energy Agency, Vienna, 22.10–488
Radioactive contamination of plants
  Persson, B. R., 22.9–187
Radioacitve contamination of water
  Bernhardt, H., 22.4–207
Radioactive diffusion
  Adroguer, B., 22.10–184
  Belekhova, N. G., 22.11–227
  Bakulin, V. N. et al., 22.3–245
  Briggs, G. A., 22.1–388
  Ikebe, Y., 22.11–228
  Israël, H. et al., 22.10–300
  Karol, I. L., 22.3–241
  Meroney, R. N. et al., 22.12–203
  Van der Hoven, I. (ed.), 22.4–382
Radioactive dosage
  Basson, J .K., 22.7–194
Radioactive fallout
  Bradley, W. E., 22.5–151
Radioactive fallout analysis
  Basson, J. K. et al., 22.7–194
  Cambray, R. S. et al., 22.11–89
  Gedeonov, L. I. et al., 22.8–134
Radioactive fallout atmospheric storage
  Leipunskiĭ, O. I. et al., 22.3–251
Radioactive fallout composition
  Garbaliauskas, Ch. A., 22.7–195
  Gedeonov, L. I. et al., 22.7–197
Radioactive fallout data analysis
  Blifford, I. H., Jr. et al., 22.4–208
  Leipunskiĭ, O. I. et al., 22.3–251
Radioactive fallout dispersal
  Hawson, C. L., 22.2–296
  Krey, P. W., 22.2–297
  Makhon'ko, K. P., 22.4–210
  Nguyen, B. C. et al., 22.2–298

Radioactive fallout distribution
- Dmitrieva, G. V. et al., 22.3–249
- Nguyen, B. C. et al., 22.2–298

Radioactive fallout measurements
- Basson, J. K. et al., 22.7–194
- Garbaliauskas, Ch. A. et al., 22.7–196
- Manolov, L. et al., 22.11–90
- Shopauskas, K. K. et al., 22.4–211
- Weng, P. S. et al., 22.4–212

Radioactive fallout over oceans
- Freudenthal, P. C., 22.6–220
- Popova, N. M. et al., 22.7–198
- Suess, H. E., 22.1–275

Radioactive fallout particle size distribution
- Nathans, M. W. et al., 22.10–180

Radioactive fallout sampling
- Cambray, R. S. et al., 22.11–89
- Manolov, L. et al., 22.11–90

Radioactive fallout trajectories
- Hawson, C. L., 22.2–296
- McNaughton, D. L., 22.12–403

Radioactive fallout transport
- Dmitrieva, G. V. et al., 22.3–249
- Karol', I. L., 22.3–250
- Krey, P. W. et al., 22.2–297
- Peirson, D. H., 22.3–254

Radioactive fallout uptake by snow
- Manolov, L. S., 22.8–379

Radioactive fallout variations
- Ambach, W. et al., 22.5–150
- Dmitrieva, G. V., 22.4–209
- Karol', I. L. et al., 22.8–363
- Noyce, J. R. et al., 22.8–136
- Shopauskas, K. K., 22.4–211

Radioactive fractionation
- Izrael', Iu. A., 22.10–179
- Peters, W. et al., 22.2–299

Radioactive hydrologic tracing methods
- Panaiotov, T., 22.5–453

Radioactive ionization
- Krasnopevtsev, Iu. V., 22.11–232

Radioactive isotope concentrations in water
- Faure, H. et al., 22.2–554

Radioactive measuring devices
- Grandjean, J. et al., 22.2–122

Radioactive monitoring
- Washington (State). Dept. of Health, 22.3–244

Radioactive nuclei
- Ikebe, Y., et al., 22.8–132

Radioactive precipitation
- Bhandari, N. et al., 22.2–292
- Styra, B. I. et al., 22.6–397

Radioactive precipitation composition analysis
- Gedeonov, L. I. et al., 22.7–197; 22.8–362
- Makhon'ko, K. P. et al., 22.8–364

Radioactive precipitation measurements
- Shopauskas, K. K., 22.12–404

Radioactive rainwater
- Chit Khaing et al., 22.3–528

Radioactive rainwater analysis
- Gat, J. R. et al., 22.3–531
- Perkins, R. W. et al., 22.3–532

Radioactive river water
- Havlik, B., 22.8–469
- Pickering, R. J., 22.1–633

Radioactive seawater
- Cherry, R. D. et al., 22.8–131
- Khanaïchenko, N. K., 22.1–718

Radioactive seawater effects on marine organisms
- Angelovic, J. W. et al., 22.4–582

Radioactive snow cover
- Dincer, T. et al., 22.2–550
- Lorius, C. et al., 22.5–295
- Manolov, L. S., 22.8–379

Radioactive snow gages
- Gosselin, P. et al., 22.3–548

Radioactive tracer applications
- Luianas, V. Iu. et al., 22.6–336

Radioactive tracer diffusion experiments
- Barry, P. J., 22.11–331
- Berliand, M. E. et al., 22.7–316

CUMULATIVE GEOGRAPHICAL INDEX

Vol. 22, No. 1–12 (Jan.–Dec. 1971)

(2) PHYSIOGRAPHICAL REGIONS

(213) TROPICAL REGIONS, 22.2–67, 413, 419; 22.5–165, 228, 283; 22.6–34; 230, 293, 586, 587, 591; 22.7–19, 44, 48, 85, 201, 239; 22.8–20, 515; 22.10–71, 284, 489; 22.11–265, 366, 367; 22.12–210, 320, 507

(215) HEMISPHERES

(215–13) **Southern Hemisphere,** 22.1–83, 288, 308; 22.2–219, 343, 429, 560, 583; 22.3–254, 293, 294; 22.4–104, 228, 480; 22.6–203; 22.7–223; 22.8–167; 22.10–194, 376; 22.11–46, 249

(215–17) **Northern Hemisphere,** 22.1–284, 289, 290, 292, 301, 469, 486, 490; 22.2–82, 196, 219, 305, 343, 345, 346, 428, 442, 482; 22.3–97, 254, 267, 456, 28R; 22.4–223, 227, 500; 22.5–219, 324; 22.6–150, 290; 22.7–130, 218, 302, 303, 433, 437, 463; 22.8–60, 232, 334, 408; 22.9–193, 270, 323, 440; 22.10–111, 193, 224, 286; 22.12–65, 216, 222

(23) MOUNTAINS

(234) **Mountains of Europe**
- Alps, 22.1–455, 675; 22.2–741; 22.6–385, 392; 22.9–500; 22.10–328; 22.11–422; 22.12–79
  - Eastern Alps, 22.6–256
    - Bucegi, 22.8–263
- Carpathians, 22.1–572; 22.2–495, 516, 520, 567, 710–712; 22.3–570; 22.4–31; 22.5–312; 22.8–271; 22.10–264, 348; 22.11–352; 22.12–327, 345
- Caucasus, 22.1–577
  - Mt. Elbrus, 22.8–476
- Crimeans, 22.10–326
- Erz, 22.2–529
- Jura, 22.9–327
- Karkonosze, 22.3–421
- Tarcu, 22.9–277
- Tatras, 22.4–463; 22.5–182
  - Chopek Mt., 22.8–222
  - High Tatras, 22.9–444
  - Lomnice Peak, 22.8–222
- Upper Harz, 22.1–452; 22.12–426
- Urals, 22.7–495; 22.8–153, 376, 377
- Wetterstein, 22.10–443

(235) **Mountains of Asia**
- Altai, 22.2–736
- Byrranga, 22.12–14
- Mt. Fuji, 22.9–324; 22.12–298
- Mt. Hakusan, 22.2–535
- Mt. Norikura, 22.9–352
- Mt. Owhira-yama, 22.2–537
- Mt. Teine, 22.9–406
- Mt. Zaô, 22.9–350
- Nuratoo, 22.5–497
- Pamir-Alai, 22.3–774; 22.12–322, 381
- Pamirs, 22.4–261
- Putorana, 22.1–387
- Tien Shan, 22.4–571; 22.5–205; 22.7–503; 22.8–475; 22.9–385; 22.12–411
  - Chichkan Valley, 22.11–432
  - Dzhungar Ala-Tau, 22.1–456, 661; 22.5–275
  - Hindu Kush, 22.7–387
  - Trans-Ili Ala-Tau, 22.1–630, 665, 666; 22.2–32, 331, 501, 502; 22.5–276; 22.7–421; 22.9–371
    - Malaya Almatinka Region, 22.1–402

(237) **Mountains of North America**
- Appalachians, 22.2–146; 22.5–459
- Black Hills, 22.12–343
- Bridger, 22.11–137
- Cascades, 22.2–151; 22.6–159
- Elk, 22.2–152
- Front Range, 22.12–299
- Jemez-Sierra Nacimiento, 22.6–160
- Mt. Olympus, 22.1–670, 673
- Ozarks, 22.7–494

Park Range, 22.10–94
Rockies, 22.1–442; 22.2–365, 538; 22.3–443, 551, 557; 22.11–155
Kananaskis Valley, 22.4–320
St. Elias, 22.11–434
San Bernadino, 22.8–88
Sandia, 22.3–120
Santa Catalina, 22.8–412
Sierra Nevada, 22.11–451
Wasatch, 22.2–150
White, 22.2–551, 22.6–445
Whiteface Mt., Adirondack Mts., 22.8–269
(238) **Mountains of South America**
Andes, 22.6–443
Sierra Nevada de Santa Marta, 22.2–743
(239) **Mountains of Oceania**
Makahus Saddle, Kaweka Range, 22.2–559
(26) OCEANS, SEAS, AND INTERCONNECTIONS
(261) **Atlantic Ocean,** 22.1–127, 471, 724, 765; 22.2–69, 332, 498, 769, 20R; 22.3–277; 22.4–37, 345; 22.5–331, 541; 22.6–217; 22.7–198, 225; 22.10–176, 332; 22.11–524, 525; 22.12–228, 474
(261 :213) Tropical Atlantic, 22.1–718, 764; 22.2–194, 795; 22.6–591; 22.8–350; 22.10–489; 22.11–265
(261.1) North Atlantic, 22.1–378, 710, 721, 723; 22.2–133, 757, 770, 42R, 43R; 22.3–278, 280, 291, 463; 22.4–595; 22.5–85, 92, 590, 591; 22.6–220, 292, 565, 594; 22.7–522, 531; 22.8–245; 22.9–18, 266, 286, 368, 517; 22.10–278, 344, 508; 22.12–17, 211, 228, 482, 510, 514
(261.2) Northeast Atlantic, 22.1–743; 22.2–753; 22.3–381, 386, 798; 22.5–545; 22.6–28; 22.7–118; 22.9–315; 22.11–523; 22.12–301
(261.24) Baltic Sea, 22.1–387, 713, 748; 22.2–40R; 22.3–238, 404; 22.6–563, 583, 597; 22.7–518, 526; 22.8–506, 512, 525; 22.12–331, 503
Courland Lagoon, 22.1–682

(98/99) Polar (Arctic and Antarctic) Regions, 22.2–7, 249; 22.3–609; 22.4–351; 22.7–58; 22.8–404
(98) **Arctic,** 22.1–155, 161; 22.4–383; 22.5–162, 247; 22.7–65, 66, 242; 22.8–82, 190; 22.9–283; 22.10–226, 416; 22.11–197, 208, 246, 247, 284; 22.12–223, 290, 295
(98–11) Eastern Arctic, 22.1–678

- (984) European Arctic sector
  - Norwegian Arctic, 22.12–441
  - Spitsbergen, 22.12–240
- (985) Soviet Arctic sector, 22.1–223; 22.5–348; 22.6–222, 223, 275, 276; 22.7–371; 22.8–168, 371
  - Heiss Island, 22.12–179
- (987) American Arctic sector, 22.11–511; 22.12–494
  - Canadian Arctic, 22.10–24
- (988) Greenland, 22.1–21; 662; 22.2–424; 22.4–494; 22.5–292; 22.11–42, 458, 461
  - Jarl-Joset, 22.2–528; 22.5–502
  - Kanak, 22.2–692
  - Thule, 22.6–540
- (99) **Antarctica,** 22.1–218, 223, 650, 658, 667; 22.2–424, 565, 600, 735, 738, 22.3–20, 65, 205, 217, 635, 772, 773; 22.4–332; 22.5–162, 187, 293, 295, 457, 500; 22.6–217, 410, 425, 450, 539, 541; 22.7–210, 237, 290; 22.8–157, 190; 22.9–501; 22.10–62, 389, 446; 22.11–218, 462, 507; 22.12–66, 173
  - Adelie Coast, 22.8–365
  - Anvers Island, 22.5–504
  - Banger Oasis, 22.4–246
  - Byrd, 22.8–109; 22.12–476
    - Byrd Station, 22.1–175, 511, 512; 22.4–159; 22.5–292, 325
  - East Antarctica, 22.8–342
  - Ellsworth, 22.4–140
  - Enderby Land, 22.12–417
  - Filchner Ice Shelf, 22.5–505
  - Heard Island, 22.5–507
  - Lake Vanda, 22.6–529
  - Larsen Ice Shelf, 22.8–478
  - Little America V, 22.3–299
  - McMurdo Station, 22.3–98
  - Mawson, 22.11–508
  - Mirnyy, 22.2–581; 22.6–274; 22.11–248
  - Norway Station, 22.8–261
  - Plateau Station, 22.2–525; 22.5–296
  - Ross Ice Shelf, 22.5–503; 22.8–479
  - Showa Station, 22.3–636, 640, 641; 22.9–150; 22.12–472
    - Showa Base, 22.4–103
  - Southice, 22.5–297
  - Victoria Land, 22.2–742; 22.10–479
  - Vostok, 22.1–186; 22.2–692; 22.5–207
  - Western Dronning Maud Land, 22.4–572
  - Wilkes Land, 22.5–501

TABLE OF CONTENTS

Vol. 22, 1971

Issue number	Month	Page	Number of abstracts
1	Jan.	*1*	775
2	Feb.	*277*	800
3	March	*553*	800
4	April	*835*	600
5	May	*1043*	600
6	June	*1259*	600
7	July	*1473*	537
8	Aug.	*1665*	525
9	Sept.	*1849*	525
10	Oct.	*2037*	525
11	Nov.	*2227*	525
12	Dec.	*2405*	525
Indexes	Jan.–Dec.	*2593*
